

Microbes for pets

Natural food supplements with gut friendly microbes. Healthy Habitats helps to keep pet eating and sleeping areas fresh, odour free and easier to clean.

Customers report a variety of benefits:

- ⦿ better looking animals, glossy coats
- ⦿ happier pets
- ⦿ increased appetite and weight gain for older animals
- ⦿ greater wellbeing

How it works

Microbz probiotic NutritionBoosters contain billions of beneficial microbes that are designed to support the immune system by maintaining positive microbes in the digestive tract. Combinations of active and beneficial microbes are brewed with herbs into a live, fermented probiotic that can be added to normal feed or drinking water.

<p>Dog/Cat/Pet Nutrition Booster</p>	<p>Designed to:</p> <ul style="list-style-type: none"> ⦿ improve quality of coat ⦿ improved wellbeing ⦿ aid digestion 	<p>Dry food additive: 5-10ml per day mixed with feed.</p>
<p>Dog/Cat/Pet BioFlex</p> <p>Available in 500ml & 1L</p>	<ul style="list-style-type: none"> ⦿ easier joints ⦿ support gut and immune system ⦿ help cartilage and ligaments 	<p>Wet food additive: 5-10ml per day mixed with food or in drinking water.</p> <p>Pour over pet food during preparation and mix thoroughly.</p>
<p>Healthy Habitats</p> <p>Available in 500ml/1L/5L</p>	<p>Designed to:</p> <ul style="list-style-type: none"> ⦿ improve pet feeding and sleeping areas ⦿ eliminate bad smells and reduce flies ⦿ improve air quality ⦿ suppress pathogenic bacteria ⦿ create healthier, more balanced & natural living environment. 	<p>Dilute 50ml into one 500ml spray bottle with water (preferably unchlorinated).</p> <p>Surfaces: spray, leave for at least 5 minutes, then wipe.</p> <p>Bedding: spray and leave to be absorbed.</p>
